

THE NEW "KICK" AT ONE GLANCE

ballspeedometer.de

Professional ball speed measurements for stadiums, TV + events

brings fun, excitement and action in

- ✓ World and European Cup fan zones, guest areas and TV studios
- ✓ in and outside soccer stadiums, handball and ice hockey arenas
- ✓ at tournaments and home matches, from the premier league all the way down to the championship league two
- ✓ pro-am tournaments, club events, village festivals
- ✓ gym tournaments and foyers
- ✓ open houses, trade shows, conventions, exhibitions
- ✓ pedestrian malls, openings, road shows
- ✓ employee incentive programs and seminars

Exclusive and promotionally effective

- ✓ sponsor branding on ad, goal and periphery
- ✓ separate cup and award ceremony for the ballspeed tournament
- ✓ additional references on invitations
- ✓ prizes, giveaways, announcements, invitations to participate

A more personal and emotional experience

- ✓ "Turning the brand into even more of an enjoyable experience" has never been easier
- ✓ for players, spectators, guests, fans, passers-by, ...
- ✓ for those people who have always wanted to know how fast they could shoot it
- ✓ Emotionalizing shooting duels: few kph can make the difference.
- ✓ Competitions and victors can only arise out of making accurate speed measurements for everybody – killing all the fun if measurements are faulty.

Newer – greater accuracy – more reliable

- ✓ Ballspeedometer was specially designed for sports.
- ✓ measures every shot accurately and reliably
- ✓ no obvious faulty readings as is often the case with external radar pistols
- ✓ Even the pros take shot measurements by using Ballspeedometer

Indispensable for professionals

- ✓ event agencies, event outfitters, organizers
- ✓ event suppliers, breweries, beverage companies, caterers
- ✓ indoor soccer facilities, soccer arenas, ice hockey stadiums
- ✓ sports endorsers and TV stations
- ✓ theme parks, outdoor public swimming pools, sports and shopping centers
- ✓ power, energy, high-tech, speed companies
- ✓ pro clubs for home matches, training sessions and endorsers
- ✓ for amateur clubs and youth divisions to raise some extra cash by charging shooting fees and by having endorsers

Easier to set up and use everywhere

- ✓ only 2 cables + 2 tripods, plug it in – get ready – shoot
- ✓ a shooting distance to goal of 1m is sufficient for taking measurements, that is why
 - ✓ ...there are no bounce offs as with goal walls
 - ✓ ...to be used safely indoors + outdoors, also with big crowds
 - ✓ ... minimal surface area of 3x5m is enough

Made by professionals for professionals

- ✓ Minipack fits in trunk – in flight case 87x24x17cm
- ✓ Professional accessory for mobile event deployment:
 - ✓ Innovative advertising vehicle: folding displays, beach flags, tents
 - ✓ Inflatable 4x2.5m goals and collapsible 3x2m aluminum goals

To be used and tested immediately

- ✓ Special ballspeedometer radar sensor
- ✓ Large 3- or 5-digit LED display + cable + tripods
- ✓ Special flight case for safe transportation
